

BATTERY CHARGER

GYS

Ref. 024939

Gystech 3800

Powerful, compact and light, GYSTECH 3800 was designed for the "automatic" charge or maintenance of 12V lead batteries (liquid or gel).

12V

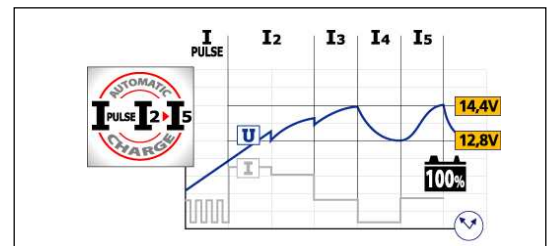

Charge 1,2 > 60 Ah			
Maintenance 1,2 > 120 Ah)			

Ideal for cars, motorcycles, riding lawn mowers, etc.

For motorcycles, the specific connection cable which can be permanently fixed on the chassis, allows to rapidly connect the charger.

This intelligent charger insures a 100% charge, in 5 steps, without supervision.

Various protections : polarities reversals, short-circuit, overheating.
