

LCD WELDING HELMET

GYS

Zeus welding helmet

The Zeus 9-13 welding helmet is a real revolution for the welders : ARC, MIG-MAG, TIG. Its electro-optical filter automatically switches from a light shade to a dark shade as of starting. It comes back to the light shade when the arc stops.

Advantages : precision and better quality of welding
comfortable whatever the position and visual security
time and productivity savings

Plus... a new trendy look

TECHNICAL DATA

Start shade : 4
Welding shade : 9 to 13
Vision field : 98 x 46mm

Reaction time at arc starting : 0,05ms
Adjustable parameters :
✓ Shade from 9 to 13
✓ Sensibility
✓ Time to go back to light state : 0,1 to 1s

Power supply : battery + sun
Dimensions : cell 110 x 90 x 10mm
Conformity : CE
Directive 89/686 CEE/EN 379 and 175
Total weight : 410g
Warranty : 1 year

CONSUMABLES

External protection screens
Set of 2 -----Ref. 042759

Internal protection screens
Set of 2 -----Ref. 042681
Set of 20 -----Ref. 042698
