## Mod. "MIDI RANGE MNR 9"

### TECHNICAL DATA

**BASEMENT** one central row of gratings, supporting capacity for each grate 1650 Kg

**MOTORIZED FRONT DOOR** mm 3600(W) mm 4900(H)

**N° 1 SIDE SERVICE DOOR**, right opening (antipanic system)

**SIDE WALL**, thickness mm 60, in plastified galvanized sheet panels with glass wool material inbetween

**INSULATED FILTERING PLENUM** mm 3600(W) and having the same length of the spraybooth

**LIGHTING FIXTURES** N° 14 lighting fixtures in the upper part, with N° 4 neon tubes elements, and N° 13 in the lower part, tot. 108 tubes

**N° 1 MAKE UP UNIT** type "LM2", with N° 2 centrifugal fans and N° 2 electric motors of Kw 5,5 (Hp 7,5) each one

**HEAT EXCHANGER** in stainless steel, Kcal/h 280.000 (max.)

**BURNER** Oil (Optional : LPG or Natural Gas)

**BY-PASS** which opens automatically in spraying phase and which recirculate 90% of warm air in cure cycle

**DRYING PHASE** with partial recycle of the air

**N° 1 DRY EXHAUST UNIT** type "EE2", with N° 2 centrifugal fans and N° 2 electric motors of Kw 5,5 (Hp 7,5) each one

**AUTOMATIC CONTROL PANEL**
